SANTHRA S

+91 8807710284 | Santhra.satheesh@gmail.com | LinkedIn | GitHub

Tamil Nadu, India

PROFESSIONAL SUMMARY

I am a graduate in Computer Science with practical experience in JavaScript, React.js, Node.js, HTML, CSS, SQL, and Git. I am skilled at creating responsive web applications, implementing both frontend and backend features, integrating APIs, and working with databases. I developed my programming, analytical, and problem-solving skills through academic and personal projects. I am looking for an entry-level position as a Full Stack Developer, Software Developer, or Web Developer.

WORK EXPERIENCE

Cyber Security Intern – AICTE & Edunet Foundation *Jan 2025 – Feb 2025*

- Designed and implemented LSB Steganography using Python
- Utilized OpenCV and NumPy to embed hidden messages in images securely
- Strengthened understanding of data security and encryption techniques

Artificial Intelligence Intern – AICTE *Nov 2024 – Dec 2024*

- Developed and evaluated machine learning solutions using Python and Scikit-learn.
- Performed data preprocessing and feature engineering on real-world datasets.
- Assisted with model training and evaluation for machine learning applications.
- Improved data quality and classification performance through preprocessing and feature engineering.

PROJECTS

SANAÉRA — Full-Stack E-Commerce Platform (link)

- Developed a high-performance, SEO-optimized e-commerce platform using Next.js 15, TypeScript, Tailwind CSS, Prisma, and PostgreSQL.
- Implemented secure authentication, role-based access control, product management, Cloudinary image uploads, and Razorpay payment integration.
- Designed a responsive, premium user interface with interactive animations and optimized shopping workflows for handcrafted products.

Digital Vending Machine for Sanitary Pads (link)

- Developed a QR-based smart vending system designed to improve accessibility and privacy.
- Implemented subscription and transaction-related functionality.
- Designed the system around real-time interactions between users and the vending platform.

Santrix — Full-Stack E-Tuitions Platform (link)

- Developed a full-stack online tuition platform using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS, featuring student, teacher, and admin dashboards.
- Built RESTful APIs using Node.js and Express.js for authentication, courses, users, bookings, and administrative operations.
- Designed responsive interfaces using React.js, Tailwind CSS, React Router, and Axios for seamless frontend-backend integration.

EDUCATION

B.Sc. Computer Science *2023–2026*
Nilgiri College of Arts & Science, Tamil Nadu

SKILLS

Programming Languages: Python, Java, C++, JavaScript
Web Development: HTML5, CSS3, React.js, Node.js, Responsive Web Design, REST APIs
Database: MySQL, SQL
Developer Tools: Git, GitHub, VS Code, PyCharm, Linux
Data & AI: Machine Learning, NLP, Data Preprocessing, Feature Engineering
Other Tools: Salesforce, Microsoft Office
Soft Skills: Communication, Teamwork, Time Management, Problem Solving

---

CERTIFICATIONS

- AI/ML in Geodata Analysis – ISRO (Certified)
- Power BI Workshop – Completed
- National Level Presentation – Crisis Management in the Digital Age, IES MCRC.
- Infosys Placement Training – Program (15 Days Training)
